

# *Pacer* Group

## ***Marine Tough***

All Pacer Group LED lights are built with the harsh marine environment in mind

## ***Accessory Lighting***

Accessory Lighting is a type of marine LED lighting that is designed to help enhance the visual presentation of an area on a marine vessel. So, rather than just having regular lighting in a kitchen or living space, one could utilize accessory lighting to enhance the visual appearance of the area with high level illumination. All while enhancing the appearance of the area with the high quality finishes of the lighting assembly itself.
