

Wire & Cable Manufacturer

Etched Switch Covers

Etched Switch Covers

are the highest quality covers available. With laser precision, our switch covers offer a flawless finish you simply cannot match with other methods. The etched switch covers we offer are available in either single or dual-light formats, giving you the freedom to choose the one that suits your application best. We currently offer a wide selection of etched switch covers, with hundreds of options available to choose from.

Construction

Made from black thermoplastic polycarbonate with a hard nylon overlay

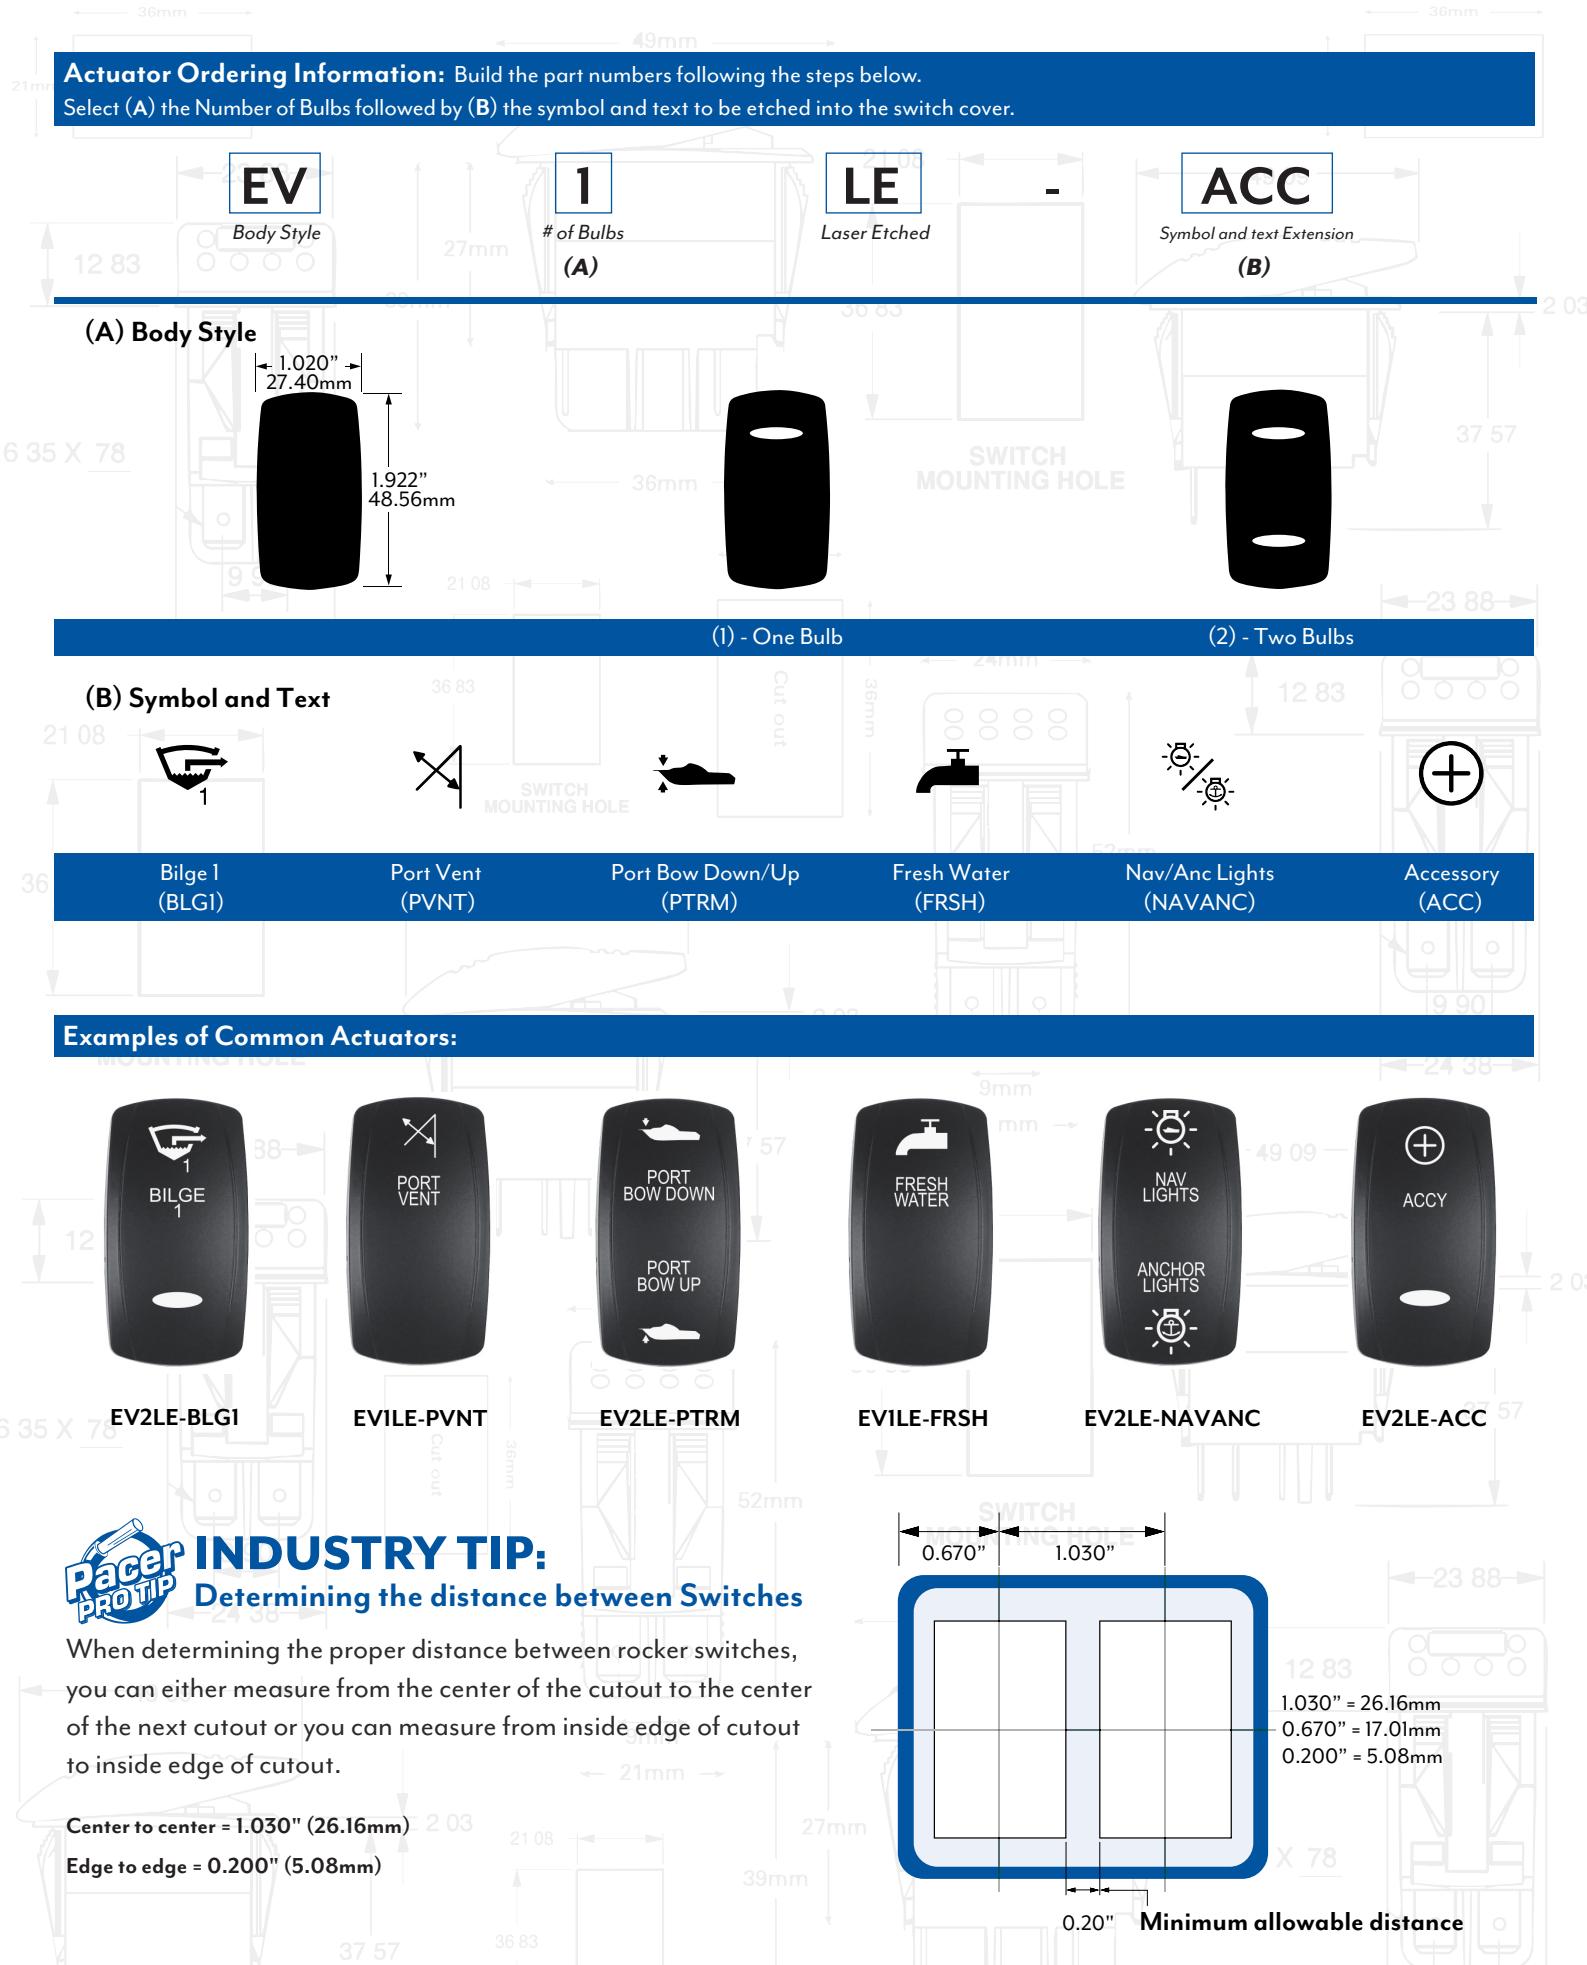

Features

- Easy to install
- Resistant to Abrasion
- Multiple lens options
- Resistant to exposure
- Designed for interchanging
- Multiple identification options

Benefits

- Fits any Contura switch body
- Resistant to UV exposure
- Ideal for marine use
- Long lasting design
- Durable body
