Terminal Kits

Terminal kits are a collection of the terminals you need in one convenient package. Finding the terminals you're looking for has never been easier. Pacer terminal kits offer a wide range of terminals and sizes. Both the nylon and heat shrink kits contain rings and butt splices. Wires from 22-10 AWG in size can easily be terminated without having to hunt down the right size terminal. Ring terminals come with stud sizes: #8, #10, 1/4", 5/16", and 3/8". Butt splices come ready to handle 22-18, 16-14 or 12-10 wires. As an added bonus, these kits come with a durable, portable plastic case that is designed for refilling and reusing.
